

## NEW U. S. CARDINAL TO BE NAMED IN MARCH

ROME, February 1.—"Will there be new American cardinals?" is the query circulating in the Vatican world, especially since it has been learned that Archbishop J. Hayes of New York has landed at Naples and is about to arrive in Rome to be received by the Pope. The archbishop is understood to have with him for presentation to the pontiff one of the most important reports brought from America by any member of the episcopate.

It now seems definitely settled that the next consistory will occur the beginning of March and that a considerable number of cardinals are to be appointed. By some it is believed one new American cardinal will be created, and among the names mentioned are those of Archbishop Dougherty of Philadelphia, Archbishop Mundelein of Chicago and Archbishop Hayes.

In case more than one new cardinal is created for the United States it is said that one of them perhaps will be reserved by the Pope in petto.

NAPLES, February 1.—Archbishop Hayes of New York for the last few days has been giving final consideration to the report of the United States it is said that one of them perhaps will be reserved by the Pope in petto.

## Sunday Schools in America Gain 20,305 Pupils

By the Associated Press.  
CHICAGO, February 2.—A gain in enrollment of 20,305 pupils in America and a total gain throughout the world of 49,322 was indicated in the annual report of Dr. W. S. Boyard, corresponding secretary, read today at the meeting of the board of Sunday schools of the Methodist Episcopal Church. Methodist Episcopal Sunday schools in America and Europe have subscribed \$125,000 for relief of suffering in central Europe, the near east and China and money is still coming into the treasury for that purpose, the report said.

## TELLS OF WIFE MURDER.

NEW BRUNSWICK, N. J., February 2.—In a confession reported by the police, William Fitzsimmons today described the murder of his nineteen-year-old wife.

After the murder he hid the knife and went to work at the Baritan arsenal, believing her death would be considered the result of suicide.

## WOOD JOINS IN APPEAL FOR NEAR EAST RELIEF

In a statement yesterday appealing to all Americans to subscribe to the Near East Relief, Gen. Leonard Wood said:

"The Near East Relief appeal is a tremendous one. It is almost worldwide, but of all the appeals there is none more powerful than that for Armenia and the near east. Entire groups there are isolated; oppressed by the Turk, massacred generation after generation; generous in their participation in the war regardless of their future, going to the side which they thought right; giving blood and treasure. Now absolutely helpless and dying for want of food, they appeal to us who do not know want. We waste enough to feed half of Europe."

"People are going to have many appeals, but of all the appeals that come to us there is none which ought to receive more prompt or more generous response than the appeal from Armenia and the near east. That is our opportunity. We can do it. The question is will we do it? My prophecy is that you are going to do your part in the same one and generous spirit with which you have responded to all appeals." Washingtonians should send all contributions to John H. Lerner, treasurer, 208 Bond building.

## BERGER IS HOPEFUL.

Looks to New Administration and Criticizes President Wilson.

MILWAUKEE, Wis., February 2.—Criticizing President Wilson for refusing to commute the sentence of Eugene V. Debs, Victor L. Berger, in a statement, expressed hope that the new national administration would take favorable action in socialist cases in general.

"The decision of the Supreme Court in the Chicago socialist case showed that there are signs of sanity returning to some of the departments of our government," said Mr. Berger.

"It is not too much to expect that in general, and of Eugene V. Debs in particular, in the proper light."

## The Eye of Genius

An ADITORIAL

THE great painter, Turner, worked along lines so out of custom with his day that his friends "excused" his style in the bad condition of his eyesight. Genius and originality in scientific endeavor are still "excused" by the unappreciative.

So exact a science has come that today no one need have "queer" sight. Peculiarities of vision, eye defects that mar the appearance with frowns and squints are no longer to be "excused." Correct them.

Here and now—let us safeguard your precious gift of sight. Arrange for immediate examination.

"See Itz and See Better."
